& Innovation

Declaration of Commitment of the Industrial Chemistry Research Institute to the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers

The Industrial Chemistry Research Institute, represented by its Managing Director, Dr. Regina Jeziórska, D. Sc., Eng., prof. of ICRI, welcomes and supports the Recommendation of the European Commission published on March 11th 2005 on the "European Charter for Researchers" and the "Code of Conduct for the Recruitment of Researchers".

Several of the general principles of the Charter and Code have already been implemented and are common practice at ICRI to support the work of researchers and to maintain the high quality of research. In addition, the adoption of the Charter and Code will provide additional guidelines of orientation for further improvement.

The ICRI supports this initiative and we declare taking all necessary measures, specified in the Action Plan, to assure consistency of rules prevailing in the ICRI with the principles of the Charter and the Code.

Yours sincerely,

ANAGING DIRECTO

Prof. Regina Jeziórska
